# FOOD

---

For over 10 years, we have been championing London's best street food traders in our kitchens. Offering residencies to some of the finest names in Street Food and giving our customers some of the best beer-friendly bites in the business.

Having an external company running the food means that we are getting the best quality food from people who really care about every dish they serve. Constantly innovating their menus, it ensures that the food in all of our pubs matches everything else in the venue and is at a constant high standard.
